Cost

\$ 942,432

Size and Type of Construction

The transformation of the old Bodakian Rug Building at 1026 Main Street, Winchester was renovated into the new home of Gosselin Law offices. The 7,000 square foot building was completely gutted on the inside and built out into offices, conference rooms, bathrooms, kitchen, storage, reception and waiting areas.

A copper clad accent wall highlights the building's exterior, complimented by a curving portico roof and architectural glass entry. A new ramp and parking lot make the building handicap accessible. Fresh landscaping completes the exterior.
