City of Newton
Chief Procurement Office
3000 Commonwealth Ave.
Newton, MA 02159

Architect

Maguire Group
Lynn Stapleton
33 Commercial St. Ste 1
Foxborough, MA 02035

Cost

\$2,527,688

Size and Type of Construction

12,300 sq. ft. existing steel building with new masonry stairwell addition.

Types of Space

Station # 4 consisted of a complete renovation to include all new office, living quarters and kitchen facility. The buildings HVAC plumbing and Electrical were completely upgraded and a complete Fire Protection System installed. Extensive efforts went into enlarging the apparatus bay doors which now enhances the building façade with new overhead doors and masonry veneer. A new stair well addition at the rear of the building now allows a rear access to the second floor and a rear door to the apparatus bays. The new emergency generator and three phase electric up-grade was long overdue. Future underground conduits were installed for any fiber optic upgrades involving the 911 system.
